

testing

Meets or exceeds ALL standardized testing requirements for normal household upholstery products. 1,000 hours light fastness testing. Industry standard 40 hours. Significantly exceeds industry standard rating of 15,000 double rubs.

environmental impact

With NuVella, there is a much smaller environmental impact due to the fact that the solution dye process does not generate the waste water and effluent associated with other form of fabric dying.

NuVella is much friendlier to the environment because it is made with 100% recyclable fiber.

clean & care

FOR LIGHT STAINED OR SOILED AREAS:

Blot the stained/soiled area with a dry cotton cloth or paper towel to remove excess moisture.

.....

Apply mild soap and warm water directed to the soiled area of the fabric with a soft brush or sponge.

.....

Rinse thoroughly.

.....

Air Dry.

FOR STUBBORN STAINS OR MILDEW:

Add 1 cup of bleach per gallon of soap and water.

.....

Apply directly to the stain with a soft brush or sponge.

.....

Rinse thoroughly.

.....

If stains are oil-based, use some dishwasher liquid to remove the oil before proceeding as above.
